

GOOD NEWS !

Dear resources,

I have the pleasure and opportunity to announce that the chairman of the Council Treasury, Mr. Christian Dubé, announced during a telephone meeting that a temporary and retroactive to March 13, 2020 measure will be granted to all resources for the next few weeks. This measure is in addition to that 20% already granted for the reasonable operation expenses. This is an increase of \$ 9.69 per day and per each OCCUPIED place.

In the coming days, we will get information for the terms, but for the moment we only know that the amount will be retroactive to March 13 last, but we have any information about the time when the adjustment and the deposit will be done. THANK YOU FOR BEING INDULGENT WITH US.

The responsible Minister of Seniors Mrs. Marguerite Blais who was present during the telephone meeting heard our requests, recognize our work, and would like to thank us for our dedications to the children.

In addition, Mrs. Edith Lapointe chief government negotiator who introduced herself to us, takes over the reins so that to quickly start the negotiations and she assured us that she has all necessary mandates to begin. I was worried that with the pandemic the negotiations of our collective agreement be postponed for later, but it seems that the government wants that it were supported in order to get a satisfactory result for everyone in the next weeks (next months)

I am happy to make the announcement and once again thank you for your confidence in the FFARIQ team.

Geneviève Rioux  
FFARIQ President
